

COVID-19 UPDATES

At E. & J. Gallo Winery, the health and wellbeing of our employees, suppliers, customers and community is our top priority. We're in this together and now more than ever, it's important we stay connected.

We are continuing to operate and have implemented several protocols and measures to provide a safe work environment for our employees and our suppliers. Our decision making is based on our company values, government directives, and guidance from the CDC and other health officials.

STEPS WE'VE TAKEN

- Providing our employees with in-house produced hand sanitizer.
- Exercising social distancing in our facilities, breakrooms and our shift change meetings.
- Implementing safe distances in our shipping & receiving areas.
- Frequently cleaning public areas and high touch surfaces.
- Prohibiting communal food sharing.
- Conducting all interviews via video technology and all supplier meetings are being held virtually.
- Offering remote and flexible work schedules where possible.

All of us must do our part to slow the spread of COVID-19:

- Wash your hands frequently or use hand sanitizer.
- Cover coughs and sneezes.
- Maintain safe social distances.
- **Most importantly stay home if you are sick or have any symptoms of an illness.**

**WE ALL PLAY A
ROLE**

E&J Gallo Winery

SUPPORTING OUR COMMUNITIES AND EACH OTHER

Gallo is honored to help our community by providing hand sanitizer to our employees and to the Stanislaus County Office of Emergency Services who is distributing to those with the greatest need.

To our colleagues working tirelessly on the production lines and in our distributors, along with our sales & operations teams keeping stores supplied and merchandised, we appreciate you! To everyone serving our community, our deepest thanks for your commitment.

KEEPING YOUR GLASS HALF FULL

Whether hosting a virtual happy hour with friends, or gathering around your family dinner table with a bottle of wine, we're honored to play a small part in keeping your glass half full.
